

# Save by Scheduling Repairs

## Plan downtime proactively

### ■ Avoid costly downtime

Don't wait for a machine failure to complete repairs

### ■ Count on your experience

You know your machines and what's required to keep them running another 5,000 or 10,000 hours. Don't delay necessary repairs.

### ■ Let us help

We can help you plan your repairs and save. Your repairs could qualify for one of our parts and service discounts or 0% financing special
